Richard P. Swinson

Richard P. Swinson, MD, is professor emeritus and past chair of the department of psychiatry and behavioural neurosciences at McMaster University in Hamilton, ON, Canada. Previously, he was medical director of the Anxiety Treatment and Research Clinic, and psychiatrist-in-chief at St. Joseph's Healthcare Hamilton. He is a fellow of the Royal College of Physicians and Surgeons of Canada, and the Royal College of Psychiatrists in the UK. He was awarded an Inaugural Distinguished Fellowship of the Canadian Psychiatric Association in 2006, and Distinguished Life Fellow of the American Psychiatric Association in 2017. His research interests lie in the theory, assessment, and treatment of anxiety disorders, particularly OCD and social anxiety disorder (SAD). He has published more than 200 peer-reviewed papers, thirty book chapters, and ten books. Swinson has held numerous research grants since 1966, and has been an invited speaker at many conferences around the world on anxiety disorders and substance use disorders. He also chaired the steering committee for the Canadian Anxiety Treatment Guidelines Initiative, leading to the publication of Canadian Clinical Practice Guidelines for the Management of Anxiety Disorders in 2006.

Science of Future - Profusion

- Profusion is defined as what you do when you grow a stalk of corn
- That's something added to the numbers upon the earth, of an addition. In other words, profusion is more

www.themessages.com.au

Profusion won't reverse

- Profusion can slow down but it can't go away. So, it's irreversible
- In the next few years, we're going to see 20,000 years of progress in a very short time
- With profusion, as it grows, it parallels progress. And people want progress

www.themessages.com.au

What's the Problem then?

- You have to look at it in the context of profusion - is more, more of this, more of that, I want more
- this more accumulates in the earth, what you might not even see is just another layer
- well, what happened with Noah and the flood?

www.themessages.com.au

What's the Problem then?

- What has happened since 1970? It was flatlined prior to 1970
- Profusion has just totally blasted out where you can't even fathom it since then
- Now why is this important? Because there is an element to profusion that with everything, every one of those things, has a flaw in it

www.themessages.com.au

The Problem is Falleness

- **Started with the fall in the garden of Eden**
- **Falleness means that there's nothing out there that's completely pure**
- **The more advanced we get in progress, the more problems we have**

www.themessages.com.au

The end of the age is coming

- **And the danger basically comes down to mathematics**
- **The more profusion you have, the more speed in which it travels, the more also accumulating is the falleness level**

www.themessages.com.au

Our system is so integrated now

- **Since the 70s, exponential growth is going straight up where we were flatlined before**
- **Think about how you make money**
- **We are going to see a radical, drastic interruption in the way we live**
- **We know the antichrist is going to come and he's going to rule through this system**

www.themessages.com.au

Dr Swinson is giving hard fascinating evidence

- **We don't have the wisdom to deal with the growth of what we're doing now**
- **We've advanced so much in our genetically altering and how we're changing seeds**
- **Fallenness is not factored in**

www.themessages.com.au

Why is Our Lady Coming Every Day For?

- **Because God's up to something, which means there's something wrong with the world, and somethings going to happen**
- **Our Lady said January 25, 1997, "...I invite you to reflect about your future..."**

www.themessages.com.au

You've got to start rearranging your life - today

- **Our Lady said on this same message, 25th of January 1997, "...You are creating a new world without God, only with your own strength..."**
- **Where is this going to lead us to?**
- **You don't want to be dependent on a system that's growing so profusely, exponentially, that you're hooked into that, that it's going to bring you down with it**

www.themessages.com.au

You've got to start rearranging your life - today

- If everything does come down, food is important, the way you're living now is important
- I believe God is going to bring this satanic system down. I believe that's what Our Lady is preparing us for
- God has given us His people Israel with all the history and the Scripture and the lessons

www.themessages.com.au

God will not interfere

- We have Free Will so God will never violate that
- God is actually holding the system together right now
- There is so much fallenness in it that there's no way God's grace can hold it up, except out of mercy
- Divine intervention is coming through The Secrets

Every Thursday Read: Matthew 6:24

- "No one can serve two masters. He will either hate the one and love the other or be devoted to one and despise the other. You cannot serve God and mammon. Therefore, I tell you, do not worry about your life— what you shall eat or drink— or about your body— what you will wear. Is not life more than food, and the body more than clothing?"
- "Look at the birds in the sky. They do not sow or reap. They gather nothing into barns, yet your Heavenly Father feeds them. Are not you more important than they? Can any of you, by worrying, add a single moment to your life span?"
- "Why are you anxious about clothes? Learn from the way the wildflowers grow. They do not work or spin. But I tell you that not even Solomon in all his splendour was clothed like one of them. If God so clothes the grass of the field, which grows today and is thrown into the oven tomorrow, will He not much more provide for you, oh you of little faith?"
- "So do not worry and say, what are we to eat? Or what shall we drink? Or what are we to wear? All these things the pagans seek. Your Heavenly Father knows that you need them all."
- "But seek first the Kingdom of God and His righteousness, and all these things will be given you besides. Do not worry about tomorrow. Tomorrow will take care of itself. Sufficient for a day is its own evil."
